LYON, France, November 18, 2020 -- EDAP TMS SA (Nasdaq: EDAP) (the "Company"), the global leader in robotic energy based therapies, announced today financial results for the third quarter of 2020 and provided an update on strategic and operational developments.

Marc Oczachowski, EDAP's Chairman and Chief Executive Officer, said: "The third quarter of 2020 was our strongest of the year thus far, a clear signal that we are successfully navigating through the challenges posed by the ongoing COVID-19 pandemic. We closed several notable transactions during the quarter, including a bundled Focal One-ExactVu sale to Mount Sinai Health System in New York, and a Focal One sale to Keck Medical Center of University of Southern California, an early adopter of our first generation HIFU technology, Ablatherm®. At the same time, we continued to grow our sales pipeline, both in the U.S. and internationally.

"Also, during the quarter, we received regulatory approval to initiate a Phase 2 study assessing Focal One® as a potential treatment for deep rectal endometriosis and we initiated patient treatments quickly thereafter. Endometriosis represents an important expansion of our development pipeline as we work to maximize the clinical utility of HIFU across new indications beyond prostate.

"We ended the quarter with a strong cash position of \$23.4 million, sufficient to continue to execute on our Focal One-ExactVu commercial plan while advancing HIFU in endometriosis and other soft tissue indications where we believe this non-invasive technology can be beneficial.

"With COVID cases again rising in many parts of the world, including most of the US, we are carefully monitoring the effect on our operations during the fourth quarter. While we are seeing some impact on procedure volumes as hospitals continue to focus on the pandemic, we are nonetheless optimistic that we will be able to announce additional sales by the end of the year," Mr. Oczachowski concluded.
